***Reopen prosecution***

In response to persuasive arguments made in an interview, the finality of the previous office action is withdrawn and prosecution on the merits of the claims is reopened. Claims 40-45 are hereby rejoined with elected claims 1-5, 8-11 and 38-39.

***Examiner's Amendment***

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Tom Holsten on 3/23/06.

The application has been amended as follows:

In the claims:

Claim 1: In steps (i) and (ii) replace "a sequence" with --the sequence--.

Claims 2-4: In line 2 of each claim, replace "a nucleic" with --the nucleic --.

Claim 5: In line 2, replace "a sequence" with --the sequence--.

Claims 38-39: In line 2 of each claim, replace "a nucleotide" with --the nucleotide--.

Claim 43: In line 1, replace "organism" with --plant--.

Cancel claims 44-45.

***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance:

the prior art neither teaches nor fairly suggests a sequence which exhibits at least 90% identity to SEQ ID NO: 1, and SEQ ID NO: 1 has utility as a promoter, as previously set forth. A transgenic plant has utility for producing multiple copies of the desired (i.e. inventive) sequence. It is noted that the term "having" recited in claims 40-41 is interpreted to mean "comprising."

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

Claims 1-5, 8-11, and 38-43 are allowed.
